

Moments Like These

(Keith Abler)

You are the reason that love came into my life
And the meaning from that I've found
No rights, no wrongs, no in between
The crazy way you look at me ... I know

You are my first thought in the morning until
My last thought as darkness makes its
Way into my dreams at night
And I awake; the morning light; and you

Our love is like the song that blends the sweetest harmony
Like a sunset on the ocean; moments like these
And there is nowhere else on earth except
With you I care to be ..care to be

Now .. there are so many things I want to say
To make you understand and know
The way I think and feel about you
Knowing I can't live without your love.....
Without ..care to be

Now .. there are so many things I want to say
To make you understand and know
The way I think and feel about you
Knowing I can't live without your love.....
Without your love
