

## **NEW BEGINNING**

( Keith Abler )

There's such a need for love today  
Than there ever was before  
A new beginning unlock the door

People come and people go  
Light along the way  
You're something so special  
More than you could ever know  
Through the trees the wind will blow  
Angel dancing on the waters  
A spark of love will kindle deep into our souls  
Till the spring turns toward the summer.  
As we continue; tell me new

The heart of my affection  
The center of my soul  
Something about you

Something that I know and hold to  
Through the trees the wind will blow  
Angel dancing on the waters  
A spark of love will kindle deep into our souls  
Till the spring turns toward the summer.  
A new beginning; unlock the door
