

NORTHERN LIGHTS

(Keith Abler)

I can't see much .. I don't feel much
Campfire embers glow dim
Quiet forests of Northern Wisconsin
Hoot of an owl in timber hidden

Then a faint glow in the clear night sky
Green and red curtains of light
"Wake up, come quickly before they fade
Disappearing into the night"

Frozen crystals floating in dark
No substitute Northern light
Blazing light dances across the sky
Blaze on Northern Lights

Songs of wind singing thru the pine trees
Walk with me down by the lake
Bright reflections on dark waters
Stay with me till the day breaks

Lay a blanket at the waters edge
Actions speak louder than words
Make mine a habit you just can't break
Lights alive the bright fireworks

Ooh . . . where do they go?
Ooh . . . here watch the show
Ooh . . . dance high in the sky
Ooh . . . So high

Pack up the campsite take the tent down
Load everything in the truck
Driving home now with the memories
Under the lights making love

A quiet drive, then you turn and look
Smiling you touch my hand
"The Northern lights were fantastic last night"
"Yes my dear, weren't they just grand?"
