

RIDE THE WIND

(Dave Steffen)

Come ride with the wind to bring you gladness
and see if you can see
a place that's free from all this madness there for you and me.

On and on, on and on
through the time we march along
and never know just what tomorrow's gonna bring

Find your way everyday
though the skies may all turn gray
you can make it if you find a song to sing.

Come see how the stars can lead you far away
where wandering thoughts do roam
and ships sailing on the sea sail onward
and know not where they go.

On and on -
