

## **Share Your Song**

( Abler )

Driving west on I-80  
My guitar in the back seat  
Heading for the mountains  
Bound for Telluride  
To hear a song so sweet

Share your song; harmonizing  
Sing the song  
On and On we'll keep on singing  
Share your song

Walking downtown New Orleans  
Music playing on the streets  
On almost every corner of the Quarter  
They're playing so sweet for free

Share your song; harmonizing  
Sing the song  
For no one in particular  
(Just) Share your song

When you add your harmony  
Our song it comes alive  
Something tells me you must feel that way too  
The painter strokes the brush to canvas  
And hopes that dreams come true  
"Dare" he thinks, "it might work well for you

Precious time it slips away  
In songs of yesterday  
Time stands still as all my thoughts go empty  
And all that's left is you

Sing Your Song....
